

ELECTION INTEGRITY TOOLS

CITIZEN ELECTION OBSERVER GUIDE

Allows ordinary citizens to assess and report on the election process as they vote. Also includes a pre-election assessment, an incident report form, and an election reform survey.

CHALLENGER'S GUIDE

Includes detailed guidance on how to observe the election, plus an online checklist, and incident report form. A comprehensive report will be prepared and published based on the data collected. County political party chairs can contact MFAF if they would like to have the county-level data.

ELECTION INTEGRITY MANUAL AND POLL WORKER'S GUIDE

The Election Integrity Manual is a compendium of all of the election integrity tools developed by ILFAF, including a section on how to become a poll worker, how to promote election integrity as a poll worker, and a checklist and incident report form for poll workers. The manual also includes sections on election reform advocacy, pre-election observation, and voter registration audits.

Transparency is the key to deterring fraud and ensuring free and fair elections for all voters.

Michigan for America First and The America Project and have developed a suite of online tools to help poll workers, poll watchers, and ordinary citizens promote election integrity.

The tools are based on those used by international election monitoring organizations, and include guidance and simple questionnaires that can be filled in to provide the data needed to evaluate the election process, and make recommendations for reform.
